AUTOMATIC PAYMENT PROGRAM

MAKE YOUR LOAN PAYMENTS WITHOUT WRITING A CHECK.

Making your loan payment is convenient and simple. Your payments can be automatically transferred from your checking or savings* account to Farm Credit Services of Mid-America.

You don't have to worry about missing a payment, looking for envelopes and stamps or wondering if your check got lost in the mail. Payments can be a fixed amount or an amount that you adjust with each payment.

THE CHOICE IS YOURS.

Just complete the attached form and mail it to our office along with a copy of the check. We'll take care of the rest.

You can set withdrawals for any day of the month (except for the 9th-16th).

Excess payments can be placed in a funds held account or applied as a special principal payment.

Authorize withdrawals for billed amounts, fixed amounts or an amount that varies with each transaction. If you select the variable option, payments are made only when you authorize or initiate them through e-farmcredit.com.

You can cancel the program or change your options at any time.

YOUR PAYMENT OPTIONS:

Billed payments are pulled automatically on subsequent dates (from the date of your first automatic payment) for the billed amount due on your loan.

Fixed payments are pulled automatically on subsequent dates (from the date of your first automatic payment) for the specific dollar amount that is indicated on the set up form. Any excess amounts will be applied to your principal balance or to funds held.

Variable (on demand) payments occur on the business days and in the amounts you authorize. Variable payments can be authorized by accessing your account on

e-farmcredit.com or by calling 1-800-444-3276 to speak to an FCS representative. For more details on this convenient payment program, contact your local office today.

Manage your account with the click of a mouse. For fast, easy, online financial management, visit e-farmcredit.com.

**For savings account, please provide a copy of a deposit slip with pre-printed name and address or a copy of a bank statement.*
